EXPERIENCING THE WHITE COAT

Dr Rajashree studied in dental school, Ghaziabad, along with a certification course of Implants from Bioner, Spain.

The word is simple but the experience is difficult to understand. Wearing a white coat is privilege for medical professionals. It is a provision of keeping surroundings safe and secure. The White Coat is an award for itself; it beholds the nature of work. When wearing The White Coat, the experience is beyond one's imagination.

MANAGEMENT OF DENTAL ANXIETY IN PEDIATRIC PATIENTS

Dr Archana Singh, Post Graduate Trainee in Pedodontics and Preventive Dentistry. She is a passionate Writer.

Dental anxiety in children leads to uncooperative behaviour, posing challenges for dentists in a clinical setting. According to studies, girls generally exhibit more dental anxiety than boys. Other proposed etiologic factors include socioeconomic status, culture, parental anxiety, negative experiences from dental treatments, and temperament of the child.

REDUCING RISKS OF BACTERIAL ENDOCARDITIS FROM DENTAL PROCEDURES WITH ORAL TIME RELEASED XYLITOL

Dr Gaurav BDS, SCADA (USA), MDS Consultant Oral Physician & Maxfac Radiologist, Assistant Professor, Dept of OMR, NSVK Sri Venkateshwara Dental College & Hospital, Bangalore.

Infective Endocarditis (IE) is a cardio vascular disease which occurs due to microbial infection and it has been one of the major concerns in patients with pre-existing endocardial damage or sometimes even in normal healthy individuals. According to research papers, five varieties of pathophysiologies leading to IE carried out globally.

A CENTURY OF INNOVATIONS IN DENTISTRY

Dr Rashmi B J is a Dental Surgeon, practicing in Bangalore since 9 years. She is passionate in writing health articles and self-help topics. Currently, she is rendering service as a practitioner.

Past centuries gave us major innovations and advancements in dentistry. Dental experts have provided retrospective glances; personal reminiscences taking them back to the future. Hence, technology can never be taken for granted in dentistry; there are multiple aspects for consideration with the latest innovations.
