# INTRO

DentalReach is a professional site and forum for dentists.

DentalReach is one of the fastest growing online communities for dentists, where you can talk dentistry. It's a place to be visible as a dental practitioner and get liked and lauded by fellow professionals.

While the rest of the world can openly share their stories, experiences, and challenges, ethics restrain dentists to converse in an open-to-all world. DentalReach is a gated community of dentists where you can converse freely. It gives you a great opportunity to connect with peers in your locality, region, country, and specialty base. It's a place where you can voice your opinion as a dental professional, within your circle of specialty and outside.

It's a podium for visibility and networking as a dental professional.  
Happy connecting!

# LETTER FROM THE EDITOR

Prosthodontics is love, prosthodontics is madness! If you are a part of the Prosthodontics fam, or are in love with this fantastic tertiary, rehabilitative field of dentistry, you will totally understand how these two words define the journey of a prosthodontics enthusiast. You have to consider ten different things in one case, co-ordinate with the dental lab and his team, find a way between patient's expectations and reality – yes, it is crazy – but the results can be satisfying, making you fall in love with prosthodontics even more!

If you can relate to this, then you are in for an absolute treat in this month's Prosthodontics – Special issue.

## REDEFINING THE ATHLETE – DENTIST **RELATIONSHIP!**

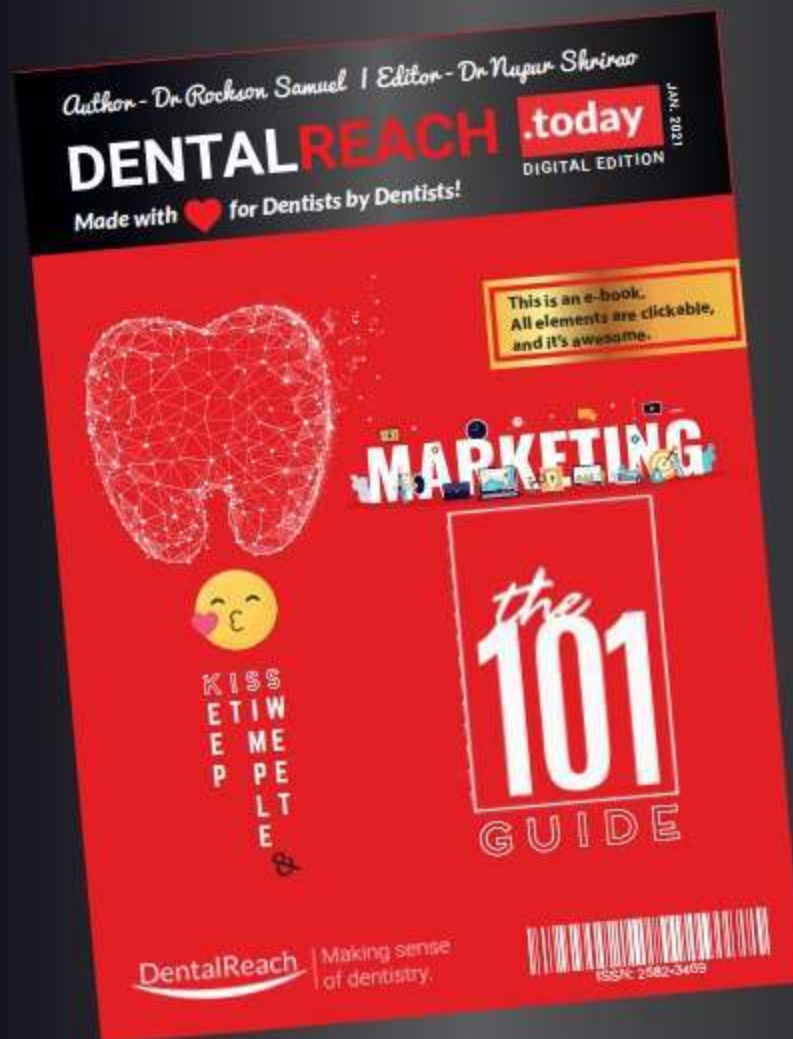

What do you think of when someone says 'dental prosthesis'? Dentures, crowns, bridges, implants? At the most, TMD splints, OSA appliances?

There's one major prosthesis we always forget, which opens up an entire sub-specialty in dentistry – mouthguards and sports dentistry! Read the entire story here!
