Mission	To promote oral health, foster through a comprehensive online initiative and become a hotspot for dentists and public.

EDITORIAL

Dr Nupur Shrirao is a consultant Prosthodontist and Aesthetic dentist. She is currently on the Editorial Committee of 'International Journal of Innovative Research in Dental Sciences (IJIRDS)' and the Reviewer Board of 'Journal of International Oral Health (JIOH)' and 'IP Annals of Prosthodontics & Restorative Dentistry (APRD)'.

The first month of 2019 has literally zoomed past us. January usually has a new-year-party's hangover, where resolutions are strictly made and diligently not followed! Well, let us consider it as a free trial month and decide that 2019 starts this February – the party mode is over and we're back to sober business. This month, we will be concentrating on some serious issues plaguing our field, some of which we are aware of, and some we might not be knowledgeable about.

DOES AIR POLLUTION AFFECT YOUR TEETH?

Dr Aswathi Cemon BDS, MBA (Hospital Management). She is passionate Writer and Blogger.

We are all well aware of pollution that has been slaying us for years now.

Pollution used to be an essay question in school and if I am not wrong it is still. So we human beings studying pollution for decades have not managed to raise a single finger to do something about it, is what we can conclude by released statistical reports.

PROBIOTICS IN PERIODONTICS

Dr Harshal P Patil, Periodontist and Implantologist. He enjoys painting, swimming, gyming and playing tabla.

Bacterial colonisation in the oral cavity starts few hours after a baby is born. As soon as teeth start erupting, the oral microflora starts changing. The oral cavity in adults contains more than 500 species of bacteria. Out of these, some are healthy and some are disease producing species.

CONTINUING DENTAL EDUCATION PART I

Dr Nupur Shirao is a consultant Prosthodontist and a grammar Nazi! Besides dentistry, she enjoys giving stage performances and radio jockeying with All India Radio.

We live in a time and age where new trends take shape every few months, dentistry is experiencing a rise in a novel curve of learning – Continuing Dental Education (CDE) programs.

REMOVAL OF A BROKEN INSTRUMENT: AN ENDODONTIC CHALLENGE

Dr Zainab A Rangwala completed graduation from GDC, Jamnagar. She is practicing since 3 years. Avid Reader and Writer by passion.

Dentists love to flaunt the curves of treated root canals.

With advancements in endodontics, it has become easier to reach normally inaccessible areas in a root canal, helping the clinician to achieve 3D cleaning and obturation.

FRAGMENT REATTACHMENT / BIOLOGICAL RESTORATION

Dr. Rashmi Punhani MDS is a passionate Pedodontist and Preventive dentist with 4+ years of experience. Currently, she is working with Axiss dental as a Pedodontist in Rainbow Children's Hospital, Marathahalli.

Coronal fractures are the most frequent traumatic injuries that affect permanent teeth. Majority of dental injuries involve the anterior teeth, especially maxillary incisors whereas the mandibular central incisors and maxillary lateral incisors are less frequently involved.

SEVEN GIFTED ASSETS OF A DENTAL PROFESSIONAL

Dr Rajesh Patnaik, B.D.S. He enjoys writing, filmography and badminton.

Dentistry is not easy work; patients sometimes give dentists a roller-coaster ride and send them back into their preliminary learning. Therefore, dentistry is also defined as an art of artist, a doctor`s dilemma and thorough engineering of head and neck.

AUTOLOGOUS BLOOD INJECTION FOR TREATMENT OF RECURRENT TMJ DISLOCATION: A CASE REPORT

★ Congratulation ★

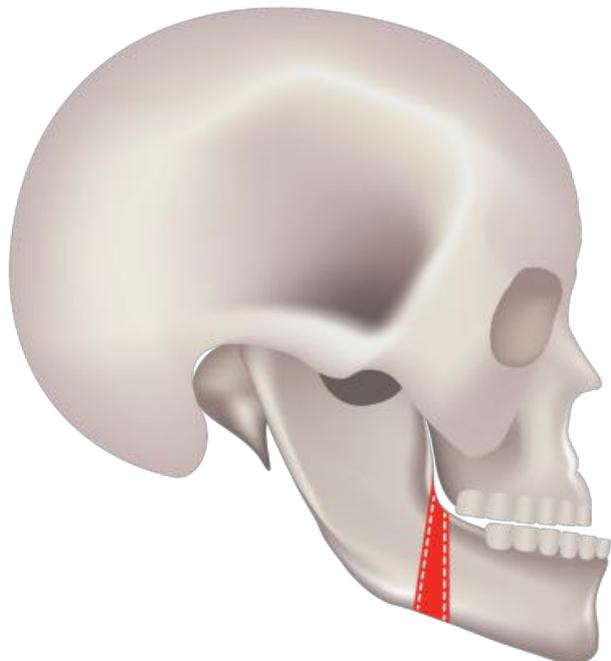

Dentistry Clinical
Contest 18-19

Winner of the
Month
December

**Dr. Venkatesh Balaji Hange,
Oral and Maxillofacial Surgeon (OMS) in
KD Dental College, Mathura.**

Temporomandibular joint (TMJ) dislocation is a distressing condition characterised by locking of the mandibular condyle anterior to the articular eminence and inability of the patient to close their mouth. Various non-surgical and surgical modalities have been described in the literature with variable success.
