Journey Of Oral Health: From Mother’s Womb To Adolescence
DentalReach is a professional site and forum for dentists.

DentalReach is one of the fastest growing online communities for dentists, where you can talk dentistry. It’s a place to be visible as a dental practitioner and get liked and lauded by fellow professionals.

While the rest of the world can openly share their stories, experiences, and challenges, ethics restrain dentists to converse in an open-to-all world. DentalReach is a gated community of dentists where you can converse freely. It gives you a great opportunity to connect with peers in your locality, region, country, and specialty base. It’s a place where you can voice your opinion as a dental professional, within your circle of specialty and outside.

It’s a podium for visibility and networking as a dental professional. Happy connecting!

Dr Rockson Samuel
Child Dentistry Is No

Although I am a prosthodontist who adores her field, the branch of pediatric dentistry has always intrigued me. Not only is this branch an amalgamation of all specialties of dentistry, it also additionally faces the challenge of managing the most difficult patients ever – children! A child patient means smaller teeth and bigger problems. Child dentistry is definitely not a child’s play!

Dr Nupur Shrirao

This article talks about the very, many applications of artificial intelligence in pediatric dentistry using an artificial neural network or ANN.

We have enumerated 22 uses. How many can you?
We heartily thank Dr Archana Singh for her heavy contribution to this special issue!

THANKS A MILLION!
This article talks about how oral surgery and prosthetic rehabilitation is important from the orthodontic perspective in a pediatric patient. Confused?

Read more about the mélange of specialties in a single case!
Beyond...Just Medicated toothpaste

- Category 1st, offering multiple flavours for kidz.
- The perfect combination of fluoride and Xylitol.
- Protects tooth enamel from caries.
- Promotes better oral health and builds good oral habits.
- Available in 3 most loved flavours for kids.
This article talks about a staged RCT and prosthesis in a permanent molar of a child.

Are you a single sitting RCT specialist? You may want to read this!
Dental treatment of patients with leukemia should be planned on the basis of antineoplastic therapy which can be chemotherapy with or without radiotherapy and bone marrow transplantation.

Many are the oral manifestations presented by these patients, arising from leukemia and/or treatment.
MOUTH BACTERIA CAN INVADE AND DEGENERATE THE BRAIN

P. gingivalis, is a prominent pathogen that contributes to Alzheimer’s disease. Others include herpes simplex virus type-1 (HSV-1), arguably the leading microbial agent that can cause Alzheimer’s disease.

World Alzheimer’s Month, Sept. 21
MANAGING FEARFUL PATIENTS DURING PANDEMIC

*Patient empowerment.*
- Explain them the extra steps taken to mitigate risk.
- Necessity of receiving treatment and risks of delaying.

*Change your perspective.*
- Try to step in your patient’s shoes.
- They are balancing fear vs need for treatment.
- Bridge the gap by avoiding complicated terms.

*Be patient.*
- Some things which are so obvious for you might be new to your patient.
This article talks about surgical excision of a lesion in a child.

Learn all about pyogenic granulomas and its management!
Sepsis has been defined as “life-threatening organ dysfunction due to a dysregulated host response to infection”.

Sepsis is rare in dentistry, but there have been cases which are odontogenic in origin.
In the colorful world of children, the basic colors black (Silver diamine fluoride - SDF) and white (Zirconia) play a pivotal role.

This article will be discussing about both these less-talked-about aspects of pediatric dentistry.
A recent study is among the largest to look at this question. Researchers analyzed data from nearly a million people who experienced more than 65,000 cardiovascular events (including heart attack) and found that:

- After accounting for age, there was a moderate correlation between tooth loss (a measure of poor oral health) and coronary heart disease.
- When smoking status was considered, the connection between tooth loss and cardiovascular disease largely disappeared.
WOMEN AND ORAL HEALTH

**Puberty:** Increased bacterial colonization = Increased periodontitis.

**Pregnancy:**
- Increased gum vascularity
- Pyogenic granuloma
- Erosion due to vomiting

**Hormonal contraceptives:**
- Reduced salivary flow
- Aggressive periodontitis
- Increased risk of dry socket

**Menopause:**
- Menopausal gingivostomatitis
- Xerostomia
- Burning mouth syndrome
- Osteoporosis
This article talks about how to take care of your child’s oral health – from pregnancy till they are adults!

As a concerned dentist, you can share this article with your patients and notch up the level of your quality services!

Here are the top 5 benefits of doing a podcast:

1. It gives you the opportunity to create authority and credibility in your industry or niche.
2. It’s available to a worldwide audience, and the barrier to listen is, well, very low.
3. Those who listen to podcasts are IN LOVE with the medium!
4. A podcast can help you grow your audience.
5. Once you have an audience, podcasting gives you the opportunity to create an intimate relationship with them.

How to get started?
To send in your own podcasts, refer to details below -

1. Mode- Audio Message
2. Topic -
   - Clinical tip
   - An interesting article abstract
   - A product review
   - An instrument experience
   - Sound dental advice
   - A non - dental talent.
3. Time - 2 minutes.
4. Language - Any global language! (With English translation text)

COLLABORATE WITH US

Although some may think starting a business often means doing it alone, the reality is quite different. Collaboration is vital to the health and success of any business today. As neighbors and friends, it’s our natural inclination to look out for each other, and the world of business can be no different. There are many ways in which small-business owners can join forces and learn from each other, exchange ideas, increase purchasing power and grow revenues.

Why collaborate with DR?

1. Inspires you  
2. Helps you grow your network  
3. Educates you  
4. Helps you save money  
5. Solves problems  
6. Is a win-win

Join our journey and grow together
